10 Hewlett-Packard (Sales) Singapore Pte Ltd

About the Company

HP creates new possibilities for technology to have a meaningful impact on people, businesses, governments and society. The world's largest technology company, HP brings together a portfolio that spans printing, personal computing, software, services and IT infrastructure at the convergence of the cloud and connectivity, creating seamless, secure, context-aware experiences for a connected world. HP Education Services has worked with large multi-national companies and governments to integrate learning and performance for success.

Key Products

HP feels strongly about enriching and extending educational opportunities at home and across the globe—through the use of technology. We're altering educational systems and approaches to learning so that they're as technologically integrated as the world around us. We're designing devices, software, and services that are more intuitive, interactive, and ultimately more conducive to truly immersive learning. And we're improving access to education in order to provide opportunities where they have not yet existed before.
