What we do?.....

The "ePlatform Services" Industry

Year	Rev US\$
2005	417 M
2006	446 M

Medical Grade Point of Care Terminal Solutions

19" to 12" POCs

UL60601-1/EN60601-1 Certified

- IPX1 Drip-proof Approved
- IP65 Front Panel
- Side-Cover Preventing Patients' Access
- Rubber Sealed Preventing Bacteria
- VESA Standard Mounting Hole
- Leakage current :181~182 micro-amps
- 120 to 160 Deg Viewing angle with Good luminance / Contrast Ratio

Hospital-fit Enclosure

Applications, References of Advantech Medical grade Panel PC

Use Panel PC ports to link LAN/RS-232 etc to instruments

Save Space → Avoid CPU Box and VGA Cable...

Intelligent Nursing cart in Taiwan Hospitals

Netherland project
Water and dust resistance makes POC fit for use in the humid areas, such as First Aid department and the plaster room

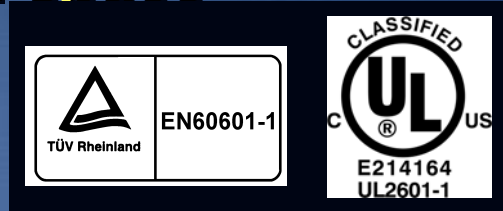

POC-S Product Features

- **Light & Slim Housing**
→ Perfect for the small space

Electricity Isolation (LAN & Com1)

- **Spill & Dust Resistant**
 - IPX1 drip-proof
 - IP65 dust-tight front panel
 - Rubber sealed prevent bacteria

- **Low-audible Noise Design**
 - Fanless design
 - Low noise design
- **Various Options**
 - Wireless LAN
 - Touchscreen (Analog Resistive)

Potential Areas/projects for collaboration

Areas / projects/ benefits	Medical Grade PC from Advantech	<u>Invite</u> Software partners / Hospital MIS team	<u>Invite</u> Equipment vendors (Anesthesia /Ventilators etc)
Intelligent Nursing carts to increase productivity of nurses	Slim POC 	CIS or any SW related to information management Nurses/Wards	To interface and accommodate everything in carts with POC
Use of Medical Grade PCs (like USA/Europe) in the Hospitals rather than Consumer PCs. (Let us care for patient safety)	13 different models	Go for Medical grade for the “Computing” and raise our Medical standards	Any Equipment linked to consumer PC or “No common & combined” display
