# ABOUT CELESTIX NETWORKS

- *Design, Manufacture & Market security appliances.*
- Worldwide partners presence in USA, Asia, Europe, Middle East & Africa.
- **Microsoft** Certified OEM and Solution Partner.
- Technology appliance partner of RSA Software, Websense, Norman & Kaspersky.
- **Wide** range of appliance solutions providing
  - **Application layer Firewall**
  - **Office-Office VPN / SSL-VPN**
  - **Web Caching, Network Proxy & Load Balancer**
- Customers includes SingTel, PSA, Spore Cruise Centre, IKEA, NM Rothschild etc.

## Solution Strengths

1. **HARDENED, OPTIMIZED, SECURED & COST EFFECTIVE** appliances.
2. Out-of-the-box, Easy-to-deploy with Secure web-based GUI. **Deploy in under 30 minutes !**
3. One-button rollback to **“Factory Reset”** & **“Restore”** to last working configuration. Eliminate on-site support for most cases.
4. Unique **Quality of Service (QoS) & Bandwidth Management** features built in.
5. Single point of **SUPPORT & ACCOUNTABILITY** from Celestix.

# Celestix MSA Appliances Range

## Ent/Large Enterprise Range

**MSA6000e**  
2U, Intel P4 Core-2-Duo, 3GB RAM, 2 x P/S,  
6x10/100/1000 PCI-Express, Accelerator, ISA 2006  
Enterprise Edition

### MSA5000e

1U, Intel P4 Dual-Core, 3G RAM, 6x10/100/1000 PCI-Express, Accelerator, ISA 2006 Enterprise Edition

### MSA5000s

1U, Intel P4 Dual-Core. 3GB RAM. 6x10/100/1000 PCI-Express, Accelerator, ISA 2006 Standard Edition

## Mid/Enterprise Range

**MSA4000b**  
1U, Intel P4 Dual-Core, 2GB RAM. 6x10/100/1000 PCI-Express, Accelerator, ISA 2006 Branch Office Edition.

### MSA4000i

1U, Intel P4 Dual-Core, 2GB RAM. 6x10/100/1000 PCI-Express, Accelerator, ISA 2006 Workgroup Edition.

### MSA3000b

1U, Intel P4. 1GB RAM. 6x10/100/1000 PCI-Express, ISA 2006 Branch Office Edition.

### MSA3000i

1U, Intel P4. 1GB RAM, 6x10/100/1000 PCI-Express, ISA 2006 Workgroup Edition.

## Middle Range

### MSA2000i

1U, Intel P4 Celeron, 1G RAM, 6x10/100/1000 PCI-Express, ISA 2006 Workgroup Edition.

## Entry Level

**PERFORMANCE/FEATURES**

celestix

# Potential Collaboration / Partners

1. Network infrastructure projects involving firewalls & proxy server solutions.
2. Remote access to critical business or office applications via VPN or SSL-VPN solutions.
3. Secure publishing of intranet/extranets encompassing secure remote access end point compliance.
4. Improving network QoS/Bandwidth Management for critical and/or time delay sensitive office or business applications/communications.
5. Managed services involving network/security or monitoring end-user experience of web applications, proactive detection of service outages and service degradation problems and root cause analysis of these problems
6. Provisioning of failover or load balancing solution to network & critical business applications.
