

Engagement Case Study

By Alex Tan

It's About Time.

QALA as an Retail Service Provider

- Traditional:
 - Broadband,
 - Data Centre Facilities,
 - Infrastructure Management

- Going Forward, customers demand:
 - Solutions,
 - Applications,
 - Services

Combining Resources

- Tapping to QALA's existing and traditional resources,
 - customer base
 - Products
 - Services

- Tapping to Cisco EPIC's
 - Development,
 - Integration,
 - Testing,
 - POC,
 - EPIC facility

- Contribution from both parties to come up with Innovative Suite of Solution (eg. IP Camera)

EPIC Collaboration – Innovation

Diverse Customer Demands – SME Solutions

Diverse Customer Demands – Enterprise Solutions

Diverse Customer Demands- Mass Deployment Solutions

QALA Singapore Co-space Project light UP Singapore

FAQs

The project aims to develop a platform which captures real-time video streams from IP Cameras and combines that with Location Based Interactive services over a WIFI network. The deployment of such a platform will allow diverse applications and tools to be developed providing benefits to consumers and enterprises in specific areas and verticals.
